

**Media Release: 2024 UNIVERSITY OFFERS THROUGH TISC  
(Embargoed until 12:00am Friday 19<sup>th</sup> January 2024 AWST)**

TISC's second (January) round university offer information is now available to applicants on the Tertiary Institutions Service Centre's website, [www.tisc.edu.au](http://www.tisc.edu.au).

TISC received a total of 13,988 applications for 2024 university entry, including 11,526 from WACE students. Last year, 14,388 applications were received, including 9,786 from WACE students.

This year, 12,188 offers were made, with 79% going to first preferences. Overall, 82% of university applicants have received an offer. At the same time last year, 11,939 offers were made, with 77% going to first preferences. In 2022, 12,468 offers were made, with 72% going to first preferences.

As of 19 January 2024, 7,684 people have accepted their offers (5,828 last year).

This year there were 801 more offers in the January round than the December round. These were made up of a mixture of new applicants and existing applicants who missed an offer in the December round or who have now been offered a course higher in their preference list.

Also included in the January round of offers are people who were offered places in the December round but had chosen to wait in the hope of being offered one of their higher preferences in the later round. The universities have re-offered 1,046 places (1,293 last year) to applicants who chose to use this 'safety net' for their December round offer.

There are always a number of people who do not take up their offers or who choose to defer studies until the following year. This year 900 offers lapsed between the December round and the January round. Also, 920 applicants have chosen to defer their study until 2025 (612 at the same time last year).

Full application and offer statistics by course for all five universities are available at <https://www.tisc.edu.au/static/statistics/statistics-index.tisc>.
